

Dear Donor,

COVID-19 has presented us with an unimaginable disaster. While our government and medical staff combat the public health implications of this fast-spreading virus, we at Smile India Trust have initiated a Smile Covid -19 Care Program specifically for daily wage earners and needy people who have lost their means of livelihood suddenly and without warning because of Coronavirus.

We are glad to share that with activities undertaken by our team in **July-2020**, we've been significant in bringing a positive change in the lives of many needy ones. It feels great to showcase our efforts with a hope that maybe, it will inspire more people to come forward and lend their support to the helpless people.

We pray for all to stay safe and stay healthy. Let us fight together against Covid-19 and flatten the curve together by staying indoors.

Like every month, this month we are sharing the various activities done by us. In of the continually evolving global situation, our activities include the **distribution of mask, distribution of food, distribution of basic rations such as rice and daal to save underprivileged people, homeless, daily wagers, migrant labourers of our society from hunger** etc.

Thanks for your tireless support in enlightening the lives of many.
